

Loot and Plunder

The underbelly of the Sphere is a dark place. In it, everyone and everything has a price. Some come cheaper than others...

Format: 250 point, 3 Round, ONE LIST, Limited Insertion

Tournament Rules: Unique scenarios revealed at the event. All Standard Tournament rules for a 250 point Limited Insertion ITS tournament apply WITH the following exception:

All players may have AVA 2 Yuan Yuan and MUST take at least one in their force. Yuan Yuan are AVA 2 for all forces, even those that can normally take more than 2. This is considered a part of the 250 points and should calculate in as normal. It does not cost SWC to take Yuan Yuan. You can either add to your force in ARMY and ignore the SWC or leave the available points open on your ARMY roster. For modeling purposes, you must accurately represent your Yuan Yuan with the appropriate model or reasonable proxy.

All players will likely want specialists and baggage. These are not required...but recommended.

Spec Ops?: No

Size: 18 Players Maximum (Potentially more with Generic Gen Con Tickets)
